Dear Mr. Eskra:

Thank you very much for your recent letter on S. 538, the Economic Dislocation and Worker Adjustment Assistance Act. This legislation, which has been incorporated into the Senate version of the trade bill, requires companies to provide advance notice of plant closings or layoffs. Your letter urges the Administration to oppose S. 538, arguing that such legislation will lead to a system that will stifle U.S. industry by making it difficult for dying, worn-out industries to evolve rapidly into new ones that are more efficient and competitive.

The Administration agrees with your assessment of this anti-competitive legislation. The Secretary of Labor and the Department of Justice have opposed S. 538 in letters and in testimony before Congress. In his most recent letter to the Senate on this bill, Secretary Brock concluded by saying that including any mandatory plant closing provisions would make it impossible for the President's senior advisers to recommend approval of a trade bill. Although S. 538 has been modified to meet some Administration objections, the bill still includes unacceptable mandatory pre-closing notification requirements.

Thank you for taking the time to share your views with me about this legislation.

With best wishes,

Sincerely,

Howard H. Baker, Jr.
Chief of Staff to the President

Thank you for your letter to Senator Baker inviting him to be a speaker at The Brea Foundation's International Speakers Series.

I hope you'll understand that a definite answer this far in advance is not possible. If you would like to send a follow-up invitation closer to the date of the event, we will be happy to give it every consideration.
